

2027

TAHITI • JULY 27 TO AUGUST 8

EIGHTEENTH PACIFIC GAMES IN FRENCH POLYNESIA

Just like Fiji in 1963, 1979, and 2003; Papua New Guinea in 1969, 1991, and 2015; New Caledonia in 1966, 1987, and 2011; and Samoa in 1983, 2007, and 2019, Tahiti, after 1971 and 1995, will host the Pacific Games for the third time.

French Polynesia will welcome Australia, Papua New Guinea, New Zealand, Fiji, Samoa, Guam, the Cook Islands, Wallis and Futuna, New Caledonia, the Solomon Islands, Kiribati, Nauru, Tonga, Tuvalu, Vanuatu, the Federated States of Micronesia, the Marshall Islands, Niue, Norfolk Island, the Northern Mariana Islands, Palau, American Samoa, and Tokelau.

BUILDING ON THE VICTORY AT THE 2025 MINI GAMES IN PALAU

Tahiti won the 2025 Mini Games in Palau with 72 gold medals. A victory earned through hard work, high standards, and ambition. However, Louis Provost, President of the COPF, made it clear to the media: the opposition will be much stronger at the Tahiti Games.

Let us be realistic. Twelve disciplines were contested in Palau; 24 are on the program for 2027.

In Palau, Australia and Papua New Guinea were absent. The New Caledonian team, made up of 36 athletes, half of whom were under 18, competed in only 6 of the 12 disciplines.

Tahiti is determined to fiercely defend its crown. Since 2017, the President of the COPF has instilled a spirit of competition and victory.

His ambition is to reach 80 gold medals by competing in all of the following disciplines: athletics, badminton, basketball, boxing, cycling, football, powerlifting, golf, weightlifting, judo, wrestling, swimming, rugby sevens, squash, surfing, taekwondo, tennis, table tennis, shooting, archery, triathlon, va'a, sailing, volleyball, and, for para sport, three para va'a V1 events: 200 meters, 500 meters, and distance. For Tahiti, this will be an opportunity to improve on its record of 76 gold medals, achieved at home in Tahiti in 1995.
